

FLEXMOVE is a pro-active door-to-door move management process for smaller shipments. It is based on client and management needs as well as time constraints. Traditionally, small shipments weighing 500 to 2500 lbs. are a challenge for conventional van lines. They must address driver shortages, traffic imbalances, unavailability of vans and delivery spreads. These problems are compounded during busy month ends and peak summer seasons. **FLEXMOVE** is the solution.

PACKING & LOADING

- Complete packing and loading by professionally trained crews using proven international standards.
- Containerizing shipments at residence avoids double handling, reducing the possibility of damage.
- Reliable one-day load and one-day delivery dates.
- Shipment crated and ready for transport within 1 business day of packing (transferees are not inconvenienced waiting for van line trucks to arrive).
- Full replacement insurance coverage is included in the door-to-door rates.

TRANSPORTATION

- Reliable transit times.
- Door-to-door service in 7 to 10 business days between most points in the U.S.
- Shipments less than 1000 lbs. may be transported economically via deferred airfreight. (Competitive rates are available for overnight and second day service).
- Guaranteed delivery dates.
- Free 7 days S.I.T. is included in the door-to-door rates.
- Van line minimum charges are avoided.

DELIVERY

- Delivery out charges from S.I.T. is included in the door-to-door rates.
- Same day full unpacking and debris removal included in the door-to-door rates.
